

## The e-safety project is assessed on Criterion A: Investigate

### Assessed task:

You are to produce short online safety guide about one or more aspects of online safety.

(see [Online safety lists \(hockerillct.com\)](http://hockerillct.com))

The form the guide takes is up to you (sway, presentation, document, leaflet, poster, video or audio recording – check with your teacher).

The guide should.....

- ✓ Explain the risks in using the Internet and how the Internet can be enjoyed in safety. \*
- ✓ Include your name and explain aspect(s) of online safety it deals with. #
- ✓ List the main websites that were used to create the leaflet.\*\*
- ✓ Be enjoyable to view ##

### Assessment criteria guideline

Level	Descriptor	Example
1-2	State the need for a solution to the problem and the finding of the research	The guide has a title and states what aspect(s) of online safety it deals with. #
3-4	Outline the need for a solution and the main findings of the research	The guide gives some key pieces of advice and gives reasons why you should follow the advice. Lists the sources used **.
5-6	Explain the need for a solution and develops the solution. Outline the main findings of relevant research.	Explains the potential dangers of misuse and gives advice to minimize these dangers. * Includes suitable images ##
7-8	Justify the solution with little guidance and present the research findings in an inspiring way	Explains the dangers and why the advice should be followed. * Well chosen graphics/audio. ##

Attach your completed guide to the assignment and hand in.
